Data Reporting Changes: Membership Application and More

September 25, 2018
Webinar for Affiliate Leaders and
Community Administrators

Purpose

The purpose of this webinar is to provide NASN affiliate leaders and community administrators with an understanding of the changes NASN's new association management system (AMS) has on the reporting of customer and member data.

Further, NASN looks to these leader groups for support in getting this information out to others who need it and providing NASN will feedback that leads to better membership data collection and reporting.

Your NASN Contacts

- Sharon Conley sconley@nasn.org
